SUMMARY

Motivated Computer Science student with experience in IT support, networking, and web development. Skilled in troubleshooting and customer service; eager to contribute technical skill in an IT internship.

EDUCATION

B.S., Computer Science (Cybersecurity) May 2029
Arizona State University, Tempe, AZ 4.15 GPA

TECHNICAL SKILLS

IT Support & Networking: Google Workspace, Cloudflare, VLANs, Unifi, Jira, Windows, MacOS
Programming: C, C++, Java, Go, HTML, CSS, JavaScript
Web Development: WordPress, Elementor, Wix, Webflow, WP Engine
Hardware & Tools: Computer assembly, GPU repasting, soldering, Fusion 360

PROJECTS

Migration of Email Systems to Google Workspace February 2025
- Set up Google Workspace for Non-Profits (Google Workspace)
- Provided direct technical assistance and documentation to ensure seamless email migration for 50+ users while reducing overall costs (Google Workspace)

Migration of Website to WP Engine February 2025
Implemented a migration for web hosting from Network Solutions to WP Engine:
- Completely redesigned our organizational website and migrated from HTML to WordPress, improving page load times by 400% and enhancing usability. Used Jira to coordinate with other stakeholders and assign tasks (WordPress, WP Engine, Jira)
- Implemented backup solutions using Updraft & Cloudflare CDN to ensure uptime and security. (Cloudflare, WordPress, Updraft Plus)

Set up Ubiquiti Network April 2025
Found a solution after my house had connectivity issues:
- Installed a Ubiquiti system, configured secure guest networks and provide detailed network maps to optimize connectivity and user experience for various client devices. (VLANs, Unifi)

Developed AI Powered Vision Assistance August - November 2025
Developed a project to help the visually impaired with object detection
- Used Raspberry Pi, sensors, webcam, and buzzer to alert visually impaired to potential danger from head high objects. Used Gemini and GitHub CoPilot for AI assisted development

Developed a website for IT December 2025
- Used HTML, CSS, and JavaScript to design a custom website for a theoretical IT management company. Developed a color palette and brand identity to enhance cohesiveness.

WORK EXPERIENCE

Fairbrae Swim and Racquet Club, Sunnyvale, CA: Senior Lifeguard (30 hours/week) May 2024 – August 2025
- Developed strong problem solving and clear communication while supervising and training 12 new lifeguards, and managing pool chemicals for 100+ patrons daily

ADDITIONAL INFORMATION

- Lifeguard, Eagle Scout, Order of the Arrow Vigil Honor, and Founder's Award Recipient
